EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Nilles on 9/17/04.

The application has been amended as follows:

In the specification:

At page 25, line 1, "Legends to the figures" has been replaced with: -- Brief Description of the Drawings --.

In the claims:

1. (Currently amended) A method for reducing binding of a ubiquitin-proteasome system to a cell surface receptor, the method comprising:
contacting a cell with a peptide that specifically inhibits the

Art Unit: 1636

interaction of an ubiquitin-proteasome segment with an ubiquitin-proteasome binding site comprising xEFIxxDx (SEQ ID NO: 1), wherein D is aspartic acid, E is glutamic acid, F is phenylalanine, I is isoleucine and x is any other amino acid, wherein said peptide corresponds to the motif of SEQ ID NO: 1;

thus reducing the incidence of the ubiquitin-proteasome system binding to the cell surface receptor.

33. (Currently amended) The method according to claim 1, wherein ~~said regulating binding of the a ubiquitin-proteasome system at a ubiquitin-proteasome binding site of said protein comprises controlling or up-regulating hormone activity by using an-inhibitor~~ said peptide interferes with said ubiquitin-proteasome system regulation of the cell surface receptors of said cell.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required.

Art Unit: 1636

See MPEP 55 602.01 and 602.02. The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c). In the instant case, a non-initialed and non-dated alteration has been made to the name of (Roland) Govers.

In the applicant's response filed 3/26/04, the applicant indicated that a supplemental oath/declaration was filed with that response. However, this supplemental oath/declaration has not been received. Therefore, the instant requirement for a new oath/declaration remains.
